If you missed a lab for an University excused absence, you have the opportunity to complete a make up activity.
The make up activity must be completed within 10 school days of the date you missed the lab to receive credit. University approved absences include official university-recognized activities or being sick and providing a doctor’s note and it must be approved by your professor. Holidays do not require instructor approval and do not count against your one makeup, but DO require completion within 10 school days. Please follow the steps below to make up your lab.
